About This Game

Come, join Maya and Mia as they attempt to restore an old family home, and assimilate into the town of Falling Leaves as you learn to mix the perfect latte to fit the ever-changing weather. Can you become a master barista, and change the mood of an ever-gloomy town?

Latte Stand Tycoon is unlike your other tycoon games that require many facets of management in that it is much more casual. It takes its game-play elements from the classic Lemonade Stand, where you have one shot each night to prep the perfect recipe for opening time the next morning.
Raise enough money, and you will be able to restore and decorate your old home, and upgrade your little latte stand into a full-fledged café!

Features:

- Get cues from your customers to see just where you went wrong for the day.

- Raise money to repair and decorate your home.

- Upgrade, open multiple counters, and eventually combine them into a full cafe.

- Unlock and upgrade deliveries via a delivery driver for a little extra cash on the go.

Unoptimized.. I LOVE THIS GAME!
the BOTS are crazy and you can play up to 4 players!
really fun to play with friends.

. Wow. This was a unexpected experience. o.O

I like it, I can't believe this is free! I would have easily paid some money for it just for support because of its originality, strange puzzle system and the constant conversations between the main protagonist and the antagonist radio guy cursing each other out is freakin' funny as heck. xD

You travel through a dream like world where nothing seems real and everything changes as if you were thrown into an episode of The Twilight Zone. Your only way out is to find clues and solve puzzles in this twisted world.
Some of the puzzles in this game, when you finally figure them out are actually satisfying because you will totally facepalm yourself when you figure out what was needed to solve them. lol

This game is short and can be finished in less than an hour but it's an hour well spent and for a free game, you really can't go wrong. Give it a try and see if it doesn't get you hooked into wanting to complete it on your first run. ^ ^. The controls dont work. You are just a sitting duck flying around in circles.
Could have custom controls, or controller support as it clearly says. But no.
Also how is it that a typical win 8 system with 4GB RAM cant handle this game unless it is on the lowest setting.
And yet, Tomb Raider works swimmingly. Steam needs to get rid of these scam games.. this game sucks. waste of money. should be returned for waste of tiome.. Slavia die for this

UPD: ERROR 53!!! ERROR 53!!!. Really fun and easy to learn game - excellent for couch co-op!

However, the devs need to tweak some things:
Stunning other players with rock throws are too easy to land and lasts too long which makes it very frustrating on the stunned player.
The rage move takes too long to charge and is useless as a result. It's too easy to stun a charging player.

The game is a lot of fun, but the frustrating aspects can easily leave people more angry than happy if the mood is too competative between people! Still recommended however as it's just plain fun despite the possible frustration. We just made a house rule that it's illigal to toss rocks, but bombs and other players were fair game. Catching someone with a dash was difficult enough to be allowed slack. Most problems were fixed with this.

Depressing gameplay about clock-watching, and cliched ending. Played it right through to the end, still dont quite know why. Maybe I was expecting some kind of gem of wisdom, instead of the "you've been stuck in the Matrix the whole time" stupidity.. This is a game with lots of potential but it kinda feels abandoned towards the end.

It starts up nice, lots of customization and room for you to play with the upgrades while balancing with the difficulty you wanna attempt (some of the difficulties dont make sense though, and as other parts of the game it seems they lack testing and a dev design to actually support it and it shows, painfully towards survival mode)

Thing is, while all is good and fun, towards the end and particularly in survival mode, things start to break down, the game is unable to process all whats happening and the fps take a fall for the worse in high end pcs for actually graphic intensive games. The worst part is, all that freedom to customize and build your ship becomes a painfully frustrating race towards maxing dps and grinding constantly to get a weapon that outclasses in damage to try and kill enemies in the lowes difficulty since you can no longer keep up and your dps falls behind more and more, which doesnt even make sense.

Its highly likely that this wasnt even tested

Its sad since i really enjoyed the game while starting up the campaign.. So far this is a very frustrating game, after we get the dagger for the first time, complete a level, and pop back into town, then the dagger is gone forever- well not gone, but not usable. It still showes in the weapon inventory, but never works. I want my 5 bucks back lol. I'm using the PC version, maybe mobile actually works? I don't know but they need to fix this game and make it work on PC, or at least offer a help manual. Got this game for my 3 year old daughter, who really wants to play it, but can't.. I enjoyed this, it was challenging, to say the least. I had to use walkthrough many times, since I just wanted to continue futher. The story was interesting, but some of the quizzes were too hard and annoying to pass.. jpg

这个游戏的游戏性非常好，
但是翻译有很多问题。

剧情也有很多问题。
但是总的来说，这是一个很有潜力的游戏，希望开发者能够继续改进，让它成为一个"真正伟大的游戏"……

The translation is wrong in some places. Maybe because the cultures are different so that it is hard to find a similar meaning in English?. This game is a case of "great concept, poor execution".

In Payroll, you assume the role of an office drone. The game is meant to feel like a windows 95 era throwback, and captures the spirit of the era with it's simple mechanics and 256-color graphics. Unfortunatley, that's about all it gets right.

The gameplay is frustrating, and you are only given the most cryptic of indications of what you are supposed to be doing. Every character "speaks" in a manner reminicant of the adult dialogue in a Charlie Brown cartoon. The tasks are menial, and there is pretty much zero fun to be had. You're better off watching old reruns of "The Office". I really can't find a single reason to reccomend this game to anyone. Don't waste your time.. its so prettty !!!!
